

# Principal's blog

**Week 1 October 10-14**

Welcome back!

It was great to walk around the school this morning and see so many refreshed and excited students. Two weeks away from school is always a great chance to recharge our batteries and get excited for the upcoming term.

On Monday, while the students enjoyed their last day of holidays, the Settlers staff worked together for the day beginning the design of our new Business Plan. This document serves to guide the school's strategic direction over the next three years, holding our vision for the students and the Key Performance Indicators that we will work to over the next three years.

This document will be publicly available for review in early 2023 and serves as a reporting document to our School Board, who oversee and guide the strategic approach of the school.

It's an exciting time for Settlers, that I'm honoured to be a part of. The collective passion and professionalism of our staff is exceptional, and I know that our school community is well placed to provide the highest possible standard of education for our students.

Mr P

# Around the School

## School Photos

The school has recently had a set of promotional photos taken by the team who take our student photos. We have received some incredible shots, capturing the day-to-day buzz of our school
